

How to make an Outside Corner

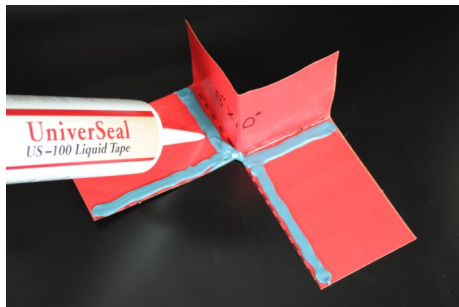

1. 8" x 10" fold in half and cut one side in half to the middle line

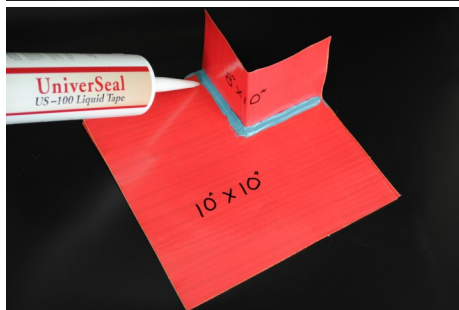

2. Fold the connected piece in half

3. Take a 10" x 10" piece and cut a 4" x 4" notch out of it

4. Place sealant on backer piece for connection with base piece

5. Embed base piece tightly to the backer piece and seal the topside
