

Mesh Tie

Masonry to Masonry

Product Information:

Uses:

- Tying masonry to masonry for structural (load bearing) & non-structural intersecting CMU walls

Dimension:

- Stock: 16 gauge – 1/2" square mesh X 6" X 14"

(Custom sizes available)

GAW 1/2 X 1/2 .063 Wire: .437 width opening of mesh, 76.4% open area of mesh, 51 lbs per 100 sqft

Finish:

- Hot Dip Galvanized after fabrication/ Zinc Coating
ASTM A153/A153M-B2 (1.50 oz. per sq ft) or ASTM A123/A123M

Advantages:

- Meets code requirements for intersecting walls
- Simple and economical to install
- Performs well and can be turned down out of the way to reduce the safety hazard
- Pliable enough to be bent back into the bed joint when the intersecting wall is constructed
- Reduces safety concerns present with Z straps or protruding wire reinforcement
