

Replace the Bucket with. . .

# GROUT GRUNT™

Take the  
"GRUNT"  
out of  
Grouting

The faster, more ergonomic way to hand-deliver grout

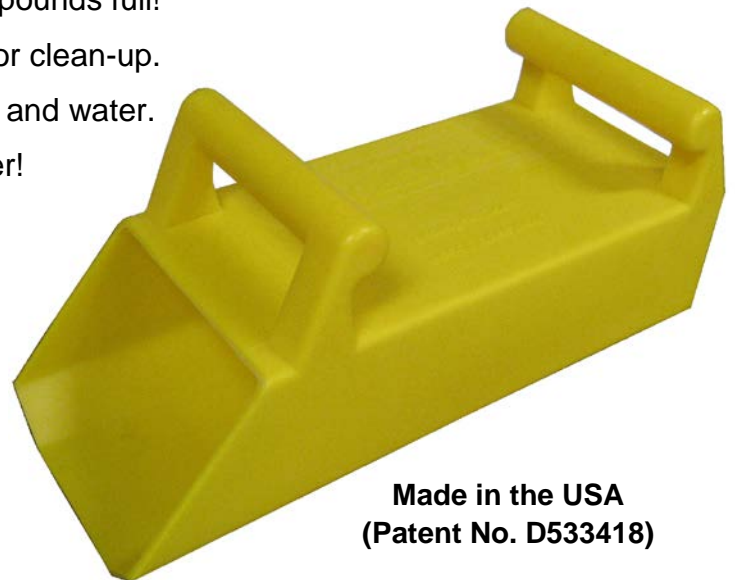

# SCOOP PASS POUR

Grouting has now become simple!!!

Put away your shovels and your buckets, the GROUT GRUNT™ effectively and efficiently places mixed grout, or any other high density material in CMU 50% faster than conventional methods. And it's much cleaner. Made from injected, molded, high-density HDPE plastic, the GROUT GRUNT™ will withstand your toughest jobs.

- Weighs under 3 pounds empty and approximately 50 pounds full!
- Excellent for low-lift grouting, no pump set-up, hoses or clean-up.
- Great for extended-set grout, mortar, pea stone, sand and water.
- The safer way to hand deliver grout – faster and easier!
- Saves time (up to 50% faster) – transfer up to 1 cubic feet of material with each scoop.
- Designed for the user and ergonomically friendly.
- Grout cleaner – no more stains on walls!
- **Designed BY a mason FOR masons!**
